

# Index

## A

active content, 216  
active cooling, 275  
ad hoc wireless network, 256  
add-ons, Internet Explorer, 178–179  
administrative tools, adding to Start menu, 18–19  
Appearance and Personalization window, 61  
Attach Files dialog box, 126  
Audio Quality slider, 133  
Authors property, 156  
AutoComplete Settings dialog box, 221  
AutoPlay, 150, 162–163  
away mode, 273

## B

backing up  
  contacts, 200–201  
  system image, 80–81  
battery alarms, 266–267  
Bing search engine, 184  
bit rate, 132–133  
Bitmap Image files, 88  
Block or Allow Specific Games link, 59  
Block These Types of Content section, 59  
Blocked Encoding List dialog box, 233  
Blocked Senders list, 230–231  
Blocked Top-Level Domain List dialog box, 233  
buffers, 78  
business cards, electronic, 202–203

## C

central processing unit (CPU), 274  
Change permission, 254  
check boxes, selecting files with, 98–99  
ClearType technology, 31  
clocks, 22–23, 41  
Comma Separated Values (.CSV) Export dialog box, 201  
compatibility mode, running programs in, 158–159  
compressed (zipped) folders, 104, 126–127  
confidential items  
  encrypting, 84–85  
  removing from Recent Items list, 15  
contacts, 198–201  
Control Panel icons, launching faster with Start menu, 16–17  
cookies, 218, 221  
Copy gesture, 282  
CPU (central processing unit), 274  
cropping images, 123  
Ctrl+Alt+Delete, requiring before logging on, 68–69

## D

Data Execution Prevention (DEP), 78–79  
Delete gesture, 282  
deleting  
  browsing history, 218–219  
  files, turning off confirmation for, 160–161  
DEP (Data Execution Prevention), 78–79  
desktop, displaying photos on, 38–39  
Device Manager window, 165  
Device Stage, configuring devices with, 48–49  
digital pen, 285  
disabling Internet Explorer add-ons, 178–179  
Disconnect Network Drives dialog box, 247

## disk drives

  backing up on, 80  
  displaying network locations as, 246–247  
  letters, 110–113  
  partitioning, 114–117  
  removable, 113  
Disk Space to Use spin box, 189  
documents  
  hiding recently used, 76–77  
  scrolling with flicks, 282–283  
domain name, 232  
dots per inch (DPI) setting, 30  
drivers, updating, 164–167  
DVDs, backing up on, 80  
DVI port, 34

## E

Easy Thumbnails, 127  
e-mail  
  blocking, 230–233  
  blocking images in, 225  
  checking for new, 207  
  contacts, 198–201  
  electronic business cards, 202–203  
  incoming faxes, notifications for, 212–213  
  junk, 226–227  
  leaving on server, 196  
  outgoing port, 210–211  
  overview, 194  
  phishing, 234–235  
  priority, 197  
  read receipts, 236–237  
  reading in text format, 224  
  rules, 208–209  
  Safe Senders list, 228–229  
  Spell Checker, 206  
  starting from Run dialog box, 11  
  storing, 204–205  
  viruses, 224  
encrypting confidential files and folders, 84–85  
Entertainment Software Rating Board (ESRB), 59  
events, assigning sounds to, 140–141  
exceptions list, Windows Firewall, 83

## F

Favorites bar, 192–193  
Favorites list, 100–101  
faxes, 212–213  
feeds, 180–183  
files and folders  
  compressing images, 126–127  
  deleting, turning off confirmation for, 160–161  
  destinations, adding to Send To menu, 104–105  
  displaying all in navigation pane, 102–103  
  encrypting confidential, 84–85  
  extensions, 88–89  
  Favorites list, adding to, 100–101  
  hiding, 95  
  making read-only, 94–95  
  metadata, 106–109  
  network, offline, 262–263  
  opening with different programs, 90–91  
  overview, 86  
  permissions, 62–63, 254–255  
  restoring previous version of, 92–93

- searches, 96–97
- selecting with check boxes, 98–99
- sharing, 248
- templates, 128–129

- Fill option, 38
- firewall, allowing programs through, 82–83
- Fit option, 38
- flicks, scrolling documents with, 282–283
- floppy drives, 112
- Format Partition dialog box, 117
- Full Control permission, 62, 254

## G

- games, limiting with parental controls, 58–59
- global positioning system (GPS), 278–279
- graphics, turning off to improve performance, 146–147

## H

- hibernate mode, 270
- Hide Icon and Notifications option, 24
- High Performance power plan, 268
- history
  - deleting, 218–219
  - keeping longer, 186–187
- Home category, 245
- home page, 176
- homegroup password, changing, 248–249
- HTML files, 224

## I

- icons
  - Control Panel, launching faster with Start menu, 16–17
  - network, 244–245
  - notification area, controlling, 24–25
  - organizing, 7
- images
  - blocking in e-mail messages, 225
  - compressing, 126–127
  - displaying on desktop, 38–39
  - imported, custom names for, 120–121
  - opening with editor by default, 124–125
  - repairing, 122–123
- Import Photos and Videos tool, 121
- indexes, searching faster with, 154–155
- infrastructure wireless network, 256
- InPrivate Browsing feature, 219
- Input Panel on-screen keyboard, 282
- Internet Explorer
  - add-ons, disabling, 178–179
  - Favorites bar, 192–193
  - history, keeping longer, 186–187
  - opening multiple pages on launch, 176–177
  - overview, 170
  - pop-ups, allowing, 190–191
  - search engines, adding, 184–185
  - tabs, 172–175
  - Web feeds, 180–183
  - Web page versions, checking for newer automatically, 188–189
- Internet Protocol (IP) address, 241
- Internet security. *See also* e-mail history, deleting, 218–219
  - media, 222–223
